

PLEATED MASK MEMORIES

Many of us have been making masks for friends, family and essential workers during this pandemic. Here is a chance to have some fun with it!

There are two designs, generally, for masks - pleated and fitted. I have included a block design for each type. My measurements will result in 12" (finished) blocks. Make your blocks as scrappy as you like, mask and/or backgrounds, with these designs.

Cutting Instructions:

- 13" square of one fabric or pieced scraps for background (to be squared up after applique).
- Four lengths of ribbon, etc., for ties, each 7" long
- Four strips for mask, each cut 2" x 10"

Construction:

- Sew four mask strips together lengthwise to make a single strata. Trim this after ironing to 6.5" x 9.25". Press under 1/4" all around rectangle.
- Glue or pin baste rectangle on background square - set the mask on an angle as I did or straight, as pleases your eyes.
- Slide 1/4" of each ribbon underneath mask rectangle at top and bottom of mask as shown.
- Applique mask to background - I used a topstitch (length 3) about 1/8" inside folded edge all the way around. You might choose to do a narrow zigzag or hand applique instead.
- Press block, then trim it to 12.5" square.
- I will tack the ribbons in place to the background after quilting.

FITTED MASK MEMORIES

Many of us have been making masks for friends, family and essential workers during this pandemic. Here is a chance to have some fun with it!

There are two designs, generally, for masks - pleated and fitted. I have included a block design for each type. My measurements will result in 12" (finished) blocks. Make your blocks as scrappy as you like, mask and/or backgrounds, with these designs.

Cutting Instructions:

- 13" square of one fabric or pieced scraps for background (to be squared up after applique).
- 8" square of fabric or pieced scraps for mask
- Two pieces of ribbon, etc., for ties, each 7" long
- Template for Mans size mask pattern (next page)

Construction:

- Using the pattern template, cut out your fitted mask shape. I did raw edge applique with my block - if you want to do turned edge applique, add 1/4" seam allowance all around your cut shape, then turn under edges.
 - Glue or pin baste your mask shape onto the background block you have chosen.
 - Pin 1/4" of each ribbon length under top and bottom edges of mask as shown.
 - Applique mask in place, being sure to firmly sew ribbon ends. I did narrow zigzag stitching by machine; you may choose that, straight edge topstitching or hand applique.
- Press and trim block to 12.5" square.
